WINDMASTER™ PUMPS

The ultimate in portability, durability and simplicity

WindMaster™ 2010: Finally a Hydraulic Tensioning Pump with the features and durability you need.

- 1500 bar Energy Tensioner Pump
- Sturdy steel constructed protective frame
- Integral Safety Rated Certified Lifting hook
- Auxiliary lifting frame hook on side of frame
- 2500 bar precision calibrated pressure gauge
- 1.5KW (1500KW) 10.5 Amp Universal Brushless electric motor for use with single phase 230V/50Hz
- High flow for multiple tensioner usage
- Exceptional heavy gauge protection
- Three liter steel tank with rubber support underneath
- Extremely flat design
- low center of gravity
- Industrial oil filter (built in tank)
- Standard with rubber feet
- Thermostatically controlled oil cooler
- Automatic operating oil temperature control heat exchanger
- Post operational cooling fan for optimal performance

TOOL SPECIFICATIONS

Weight: 44Kg (97lbs)

Ambient Operating Temperature range

-30°C to +80°C

Length: 600mm (24.7")

Width: 360mm (14.2")

Height: 430mm (16.9")
